Payment Gateways	Stripe, Paytm, eWAY, Adumo Payment Integration
APIs & Services	Mailgun API, WhatsApp API, Authentication Systems
Database	MySQL, Query Optimization, Database Design
Tools	Git, GitHub, AWS, Postman, VS Code, MySQL Workbench
Core Concepts	SaaS Architecture, Multi-Tenant Systems, RBAC, Backend Optimization

Professional Experience

Software Developer Adreno Technologies India Pvt. Ltd.	Feb 2026 – Present
- Developing scalable SaaS-based applications using Laravel and MySQL. - Implementing Stripe and Adumo payment gateway integrations with secure webhook handling. - Building queue-based systems, cron jobs, and API automation modules. - Optimizing backend architecture and database performance. - Working on enterprise CRM systems and multi-tenant SaaS platforms.	
Software Developer Business2Sell Group, Noida	Apr 2024 – Feb 2026
- Developed REST APIs for Web, Android, and iOS applications. - Integrated eWAY payment gateway and secure transaction systems. - Built Mailgun-based email automation and notification systems. - Developed CRM dashboards, roster systems, and backend modules. - Improved application performance through query optimization.	
Web Developer Topseed Technology Pvt Ltd, Noida	Mar 2023 – Feb 2024
- Developed Laravel and CodeIgniter backend systems. - Worked on e-commerce and real-estate management applications. - Implemented authentication, authorization, and API security. - Built reusable APIs and optimized backend workflows.	

Featured Projects

SaaS CRM Platform

Laravel | MySQL

- Developed multi-tenant SaaS CRM platform with subscription-based access.
- Implemented role-based access control and tenant-level data isolation.
- Built scalable REST APIs and optimized database architecture.

HRMS Attendance & Roster System

Laravel

- Built attendance automation and roster management system.
- Integrated WhatsApp API for HR communication and notifications.
- Optimized reporting modules and backend performance.

Payment Gateway Integration System

Laravel

- Integrated Stripe, Paytm, eWAY, and Adumo payment gateways.
- Developed secure webhook verification and retry mechanisms.
- Handled transaction failures and automated payment processing.

E-commerce Backend System

Laravel

- Developed product, cart, checkout, coupon, and order modules.
- Built secure APIs for Flutter-based mobile applications.
- Improved order management and backend scalability.

Education

Master of Computer Applications (MCA)

2023

Swami Vivekanand Subharti University, Meerut

Bachelor of Computer Applications (BCA)

2020

Allahabad State University, Prayagraj
